SPECIFICATION DOOR HARDWARE

ABOUT UNIVERSAL LEVERS & LOCKS

UNIVERSAL LEVER & LOCKS is a technology driven Architectural Door Hardware Brand that is committed to bring safety, security, convenience and aesthetics to any built environment. Trustworthy Quality combined with affordability characterizes **Universal Levers and Locks**.

ULL offers various door hanging, door securing, door controlling and door protecting solutions with its wide range of products manufactured in strict compliance with ANSI/BHMA standards. Finest material, advanced manufacturing techniques, and focus on continuous improvement is the secret of the unmatched reliability offered by **ULL** products.

Our products, in addition to complying with the highest standards of quality, safety, design and functionality are augmented with efficient pre-sales support and after sales service. At **ULL**, we pay special attention to the needs of our customers, our pre-sales and technical support team is well equipped to assist you with the smallest detail or the most difficult application when it comes to architectural door hardware solutions.

From the design stage to installation and beyond, our solutions form a total offering for the architectural door hardware requirements of your project.

Vision

To provide visionary leadership and management expertise to global companies operating in the Door and Door Hardware industry, by providing them with manufacturing services and certified technical support for their operations in the region.

MISSION

To advise and guide end-users and their management through development of innovative and certified (own branded) product portfolio, thereby Enabling Value to them.

CORE VALUES

01. VISIONARY
02. INTEGRITY
03. PASSION
04. RECOGNITION
05. ASTUTENESS
06. COMMITMENT

MORTISE LOCKSETS
Model# U2000 SERIES
ANSI/BHMA Grade 1
All Functions Available
Door Thickness:
1-3/8" (35 mm) to 2-1/2" (64 mm)

CYLINDRICAL LOCKSETS
MODEL# U2100 SERIES
ANSI/BHMA Grade 1
U2100K - Cylindrical Lockset w/Knob
U2100L - Cylindrical Lockset w/Lever

AUXILLIARY LOCKS (Deadbolts)
Model# U2200 Series

CONVENTIONAL CYLINDER

ULL 2310 offers a range of mortise cylinders in ANSI standard suitable for multiple level master keying, without cross keying.

- Material : Brass, Bronze
- Standard keyway : SC Keyway
- Standard length : 29 mm (1-1/8"). Other sizes available on request
- Number of Pins : 6 Pins
- Certifications : Meet ANSI/BHMA requirements of ANSI A156.5-2001

SMALL FORMAT INTERCHANGEABLE CORE (SFIC)

ULL 2310 offers a range of mortise cylinders in ANSI standard suitable for multiple level master keying, without cross keying.

- Material : Brass, Bronze
- Standard keyway : SC Keyway
- Standard length : 29 mm (1-1/8"). Other sizes are available on request
- Number of Pins : 7 Pins
- Certifications : Meet ANSI/BHMA requirements of ANSI A156.5-2001

KEY IN KNOB / LEVER CYLINDER

ULL U2340/2350 offers a range of key in knob / key in lever non IC core cylinders in ANSI standard suitable for multiple level master keying, without cross keying.

- Material : Brass or Bronze
- Standard keyway : SC Keyway
- Standard length : 29 mm (1-1/8"). Other sizes are available on request
- Number of Pins : 5 Pins

**RIM CYLINDER - HOUSING**

ULL 2332 offers a range of rim type SFIC Housings in ANSI standard.

- Material : Solid Brass
 Standard length : 29 mm (1-1/8"). Other sizes are available on request
 Compatibility : Compatible with cores from international manufacturers
 Accommodates 6 and 7 pin cores (SFIC)
 Certifications : Meet ANSI/BHMA requirements of ANSI A156.5-2001

**RIM CYLINDER**

ULL 2320 offers a range of rim cylinders in ANSI standard suitable for multiple level master keying, without cross keying.

- Material : Brass
 Standard keyway : SC Keyway
 Number of Pins : 6/7 Pins
 Certifications : Meet ANSI/BHMA requirements of ANSI A156.5-2001

**SFIC - HOUSING**

ULL 2331 offers a range of mortise SFIC Housings in ANSI standard suitable for various types of IC Cores . The solid brass construction provides extra reliability and removable design allows changing of cams

- Material : Solid Brass
 Thread : 32 per inch
 Standard length : 29 mm (1-1/8"). Other sizes are available on request
 Compatibility : Compatible with cores from international manufacturers
 Accommodates 6 and 7 pin cores (SFIC)
 Certifications : Meet ANSI/BHMA requirements of ANSI A156.5-2001

U-CY400 CYLINDERS

Drill Resistance

Bumping Resistance

Cylinder Security : Attack Resistance

- High resistance to bumping or percussion
- High resistance to housebreaking technique - highly effective against wax impression burglary
- Highly drill-resistant, thanks to the hardened steel key biting system
- Push-resistant through the projecting cam

Key Security : Key-related Security

- Key protected by 3D Trademark for effective protection from illegal key duplication
- Security Card for authorized key duplication by ULL or ULL authorized centers
- Over 140,000 possible combinations or different keys

Master Keying Potential

The 6-pin key biting system offers outstanding access management possibilities. Eg.: 15,000 different cylinders for one master key.

Reliability : Durability

Tested for more than 100,000 cycles.

Certifications

Compliant with the European Standard EN 1303:2005

Patents

Key blank protected by 3D Trademark no. 248 236 1 and Community Design no. 2669630

Applications

U-CY400 is the product for medium-security applications ideal for apartment buildings. It offers satisfactory master keying potential for companies, shopping malls, universities, hospitals combining strong access management possibilities with control of key duplication.

Technical Features : Cylinder

- 6 pin key biting system • Brass body • Brass plugs • Self-lubricating DIN sintered steel cam
- Cemented steel pins • Variable shape hardened steel pin drivers • Phosphorous bronze and steel springs

Key

- Paracentral keyway • Nickel Silver • Ergonomic grip head • Neck length 12 mm • Key numerical coding
- Key thickness 2.4 mm • Depth 0.48 mm

Finishes

- Standard: Nickel plated brass (fin. 12) • On request: Sanded brass (fin.00)

Options on Request

- KA, MK, GGMK, etc.

Standard Equipment

- 3 Keys • Fixing Screw
